How to establish virtuous collaborations serving the real needs of different communities using design? The project Change Agents explores how to create lasting infrastructures of collaboration between different key social agents and institutional settings in social design education and practice. The project wishes to bring the academic and NGO sectors closer to one another to advance a more collaborative, inclusive and participatory practice of design, while recognising the knowledge of activists, third sectors organisations and other "Change Agents".

PARTICIPANTS:

Teresa Palmieri, Jacopo Ammendola & Nicole Faiella

Free University of Bozen-Bolzano

Ruth-Helene Melioranski & Eva Liisa Kubinyi

Estonian Academy of Arts
