

ORIENT YOURSELVES!

CONTEXT: What context would you like to take action on?

ISSUE/TOPIC/THEME

CONCEPT

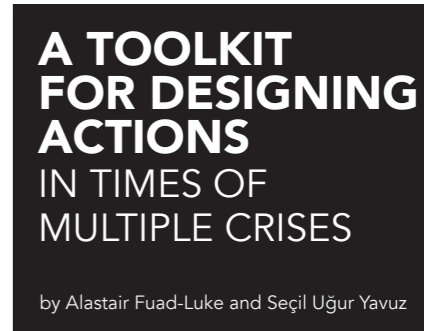

ATTITUDE

IDEA(S): Describe your initial idea(s) and objectives.

INSTRUCTIONS

1. Begin the discussion ideally with 4-8 people.
2. Define your context together.
3. Choose or randomly select three cards, one each from the categories: Issue/Topic/Theme, Concept and Attitude. You can also use the free cards to write your own issues, concepts and/or attitudes.
4. Based on the context and the three cards, define your idea(s) and objectives.

TIME REQUIRED: 30 min.

The toolkit is generated from 21 workshops of the online conference **Beyond Crisis** 17-18 April 2020 as part of **By Design or By Disaster** conference series.

CO-MAP THE ACTORS!

individual

collective

institutional

MACRO

the socio-technical landscape (cultural norms, technical, economic and political trends).

MESO

the socio-technical regime (individuals, organisations and institutions that implement, dominate or contest the socio-technical landscape).

MICRO

the niche actors implementing, dominating or contesting the socio-technical regime.

INSTRUCTIONS

1. Continue the discussion ideally with 4-8 people.
2. Exploring the context you choose in Step 1, identify the actors in the Multi-Level Perspective (MLP)* "landscape". Actors can be individuals, collective (groups, communities, not-for-profits etc) or institutions but also non-human or other-than-human actors...
3. Now select an Actors or Actors that can best help deliver your idea(s) and objective(s) to create your Action Plan (Step 3).

TIME REQUIRED: 30 min

A TOOLKIT FOR DESIGNING ACTIONS IN TIMES OF MULTIPLE CRISES

by Alastair Fuad-Luke and Seçil Uğur Yavuz

The toolkit is generated from 21 workshops of the online conference **Beyond Crisis** 17-18 April 2020 as part of **By Design or By Disaster** conference series.

<https://designdisaster.unibz.it/>

* Multi-Level Perspective (MLP) is a framework to think about and implement management of transitions (to more sustainable ways of living and working) developed by the Dutch approach of Transition Management (TM) including Geels, Kemp, Lorbach and others.
